Safety Data Sheet

Section 1. Chemical Product and Company Identification

DIAREX HIPS Product name In Case of Thailand:

+66(0)-3897-6682 **Emergency and** Technical +66(0)-3897-6683 Information +66(0)-3897-6684

Feb 2024 Revision **Synonym** High Impact Polystyrene, Rubber modified

Polystyrene

Thermoplastic polymer , Vinylbenzene polymer

Product Grade H820E

Chemical Styrene-butadiene rubber copolymer

Family

CAS Registry Number

PS0002 (EN) 9003-55-8 SDS No.

PTT Global Chemical Public Company Limited Company 7, I-1 Road, Maptaput Industrial Estate, Map Ta Phut, Name / Muang Rayong District, Rayong 21150, Thailand,

Manufacturer Address

Section 2. Hazards Identification

Irritating vapors to respiratory system and eyes may form when polymer is processed at **Emergency Overview**

Molten or heated material in skin contact can cause severe burns. FOR HOT MATERIAL: Skin contact. Eye contact. Inhalation.

Routes of Entry Potential Acute Health

Effects

Dust may cause mechanical irritation to eye. Eyes

Heated Polymer: Eye contact can cause serious thermal burns. Vapors formed when

polymer is heated may be irritating to the eye.

No known acute effects of this product resulting from skin contact at room temperature. Skin

Heated Polymer: skin contact can cause serious thermal burns.

Inhalation Negligible at room temperature. Nuisance dusts can be irritating to the upper respiratory

tract.

Irritating vapors may form when the polymer is processed at high temperatures.

Ingestion No effects are expected for ingestion of small amounts. May be a choking hazard.

Potential Chronic Health

Effects

CARCINOGENIC EFFECTS: Polystyrene is not a known carcinogen.

Not listed as a carcinogen by OSHA, NTP or IARC.

Medical Conditions Aggravated by Overexposure

Pre-existing disorders involving any target organs mentioned in this SDS as

being at risk may be aggravated by over-exposure to this product.

Overexposure/Signs/

Symptoms

No adverse health effects anticipated from the solid pellet.

Section 3. Composition and Information on Ingredients

Substance Name CAS No. % by Weight Polystyrene 9003-55-8 > 95.00 Additives < 5.00

Section 4. First Aid Measures

Eye Contact Rinse with water for a few minutes. Seek medical attention if necessary

Polymer: NO known EFFECT on skin contact, rinse with water for few minutes. Skin Contact

Heated Polymer: For serious burns from heated polymer, get medical attention. In case of skin contact, immediately immerse in or flush with clean, cold water.

Inhalation Non-toxic material. Dusts in high concentrations may cause irritation to upper respiratory

tract. Allow the victim to rest in a well-ventilated area.

Not expected that the ingestion of this material causes an effect on health. The toxicity of Ingestion

a single oral dose in considered. extremely low.

Section 5. Fire Fighting Measures

May be combustible at high temperature. Flammability of the Product

Auto-ignition Temperature

488 - 496 °C.

>550 °C. **Flash Points**

296 – 360°C (under condition of decomposition excess heating decompose polystyrene and

decomposed materials makes flash point lower.

Flammable Limits Not available.

Products of Combustion Can produce carbon monoxide (CO), carbon dioxides (CO2), styrene,

aliphatic hydrocarbons and soot.

Fire Hazards in Presence of Various Substances

Explosion Hazards

No specific information is available in our database regarding the flammability of this

product in presence of various materials.

SMALL FIRE: Dry chemical extinguisher (ABC or AB). Use water spray or fog. Fire Fighting Media and

LARGE FIRE: Use water spray or fog. Do not use water jet. Instructions

May re-ignite itself after fire is extinguished

Wear MSHA/NIOSH-approved self-contained breathing apparatus or equivalent **Protective Clothing (Fire)**

and full protective gear.

Fire may produce irritating gases and dense smoke. Special Remarks on Fire

Hazards Flowing material may produce static discharge, igniting dust accumulations.

Processing or material handling equipment may generate dust of sufficiently small Special Remarks on particle size, that when suspended in air may be explosive.

Disclaimer: To the best of our knowledge, the information contained herein is accurate and reliable as of the date of publication; however, we do not assume any liability what so ever for the accuracy and completeness of such information. We make no warranties which extend beyond the description contained herein. Nothing herein shall constitute any implied warranty of merchantability or fitness for a particular purpose. It is the customer's responsibility to inspect and test our products in order to satisfy itself as to the suitability of the products for the customer's particular purpose. Section 6. Accidental Release Measures

Pellets on the floor could present a serious slipping problem. Good housekeeping Small Spill and Leak

must be maintained at all times to avoid this hazard. Sweep, shovel, or vacuum

material into clean containers.

Large Spill and Leak Use a shovel to put the material into a convenient waste disposal container. Do not

allow any potentially contaminated water with pellets to enter any waterway, sewer or

Section 7. Handling and Storage

Avoid Temperatures of 600°F (316°C) or above. Handling

Handling of plastic may form nuisance dust. Protect personnel.

Pneumatic material handling and processing equipment may generate dust of sufficiently small particle size that, when suspended in air, may be explosive. Dust accumulations should be controlled through a comprehensive dust control program that includes, but is not limited to, source capture, inspection and repair of leaking equipment, routine housekeeping and employee training in hazards. See NFPA 654.

Dissipate static electricity during transfer by grounding and bonding containers and

equipment before transferring material.

When handled in bulk quantities, this product and its associated packaging may present a crushing hazard due to the large masses involved, possibly resulting in severe

injury or death.

Keep container dry. Keep in a cool place. Ground all equipment containing material.

Keep container tightly closed. Keep in a cool, well-ventilated place. Combustible materials should be stored away from extreme heat and away from strong oxidizing

agents.

Section 8. Exposure Controls/Personal Protection

Control Parameter Occupational Exposure limit (OEL)

GESTIS-International limit values for chemical agents **Exposure limit value**

Engineering Controls Use process enclosures, local exhaust ventilation, or other engineering controls to

keep airborne levels below established levels. If user operations generate dust, fumes or mist,

use ventilation to keep exposure to airborne contaminants below the exposure limit.

Personal Protection

Storage

Eyes Safety glasses with side shields.

Body Coveralls.

Respiratory Ventilation is normally required when handling this product at high temperatures.

Wear appropriate respirator when ventilation is inadequate.

Hands Thermally insulated gloves required when handling hot material.

Feet Shoes.

Not established. Polystyrene (Impact)

Consult local authorities for acceptable exposure limits.

Section 9. Physical and Chemical Properties

9.1. General Information (appearance, odor)

Physical State and Appearance Solid. Pellets. Color Creamy white Odor Odorless. Not available. **Oder Threshold** 9.2. Important Health, Safety and Environmental Information

Flash Point >550 °C.

296 - 360°C (under condition of decomposition excess heating decompose

polystyrene and decomposed materials makes flash point lower..

Flammability (solid,gas) Not applicable.

Lower; Not applicable. Flammable Limited in Air

Upper; Not applicable

488 - 496 °C. **Auto ignition Temperature** Vapor Pressure Not applicable.

Boiling Point (760 mmHg) Not applicable. VOC

0 (%)

Solubility Insoluble in water . Soluble in esters, ketone, aromatic hydrocarbons.

Volatility

Decomposition Temperature Equilibrium point between polymerization and de-polymerization is around 250 °C.

9.3. Other data Molecular Weight Not applicable.

Molecular Formula (-CH(C6H5)-CH2-)x (-CH2-CH=CH-CH2-)y

Melting Point Specific Gravity >132⁰ C 1.04 (Water = 1)**Freezing Point** Not applicable

Section 10. Stability and Reactivity

No information available. Reactivity

This product is stable under normal conditions. **Stability**

Hazardous Under normal conditions of storage and use, hazardous polymerization will not occur

Polymerization

Keep away from heat, flames and sparks. Avoid Temperatures of 600°F (316°C) or above. **Conditions to Avoid** Incompatibility with Reactive with strong oxidizing agents.

Various Substances

Hazardous Hazardous decomposition products are carbon monoxide, carbon dioxide, dense smoke, and various hydrocarbons. Exposure of polystyrene to extremely high temperatures (600 deg F or higher) **Decomposition**

Products may cause partial decomposition. Chemicals that may be released include styrene monomer, benzene, and

other hydrocarbons.

Section 11. Toxicological Information

Acute Toxicity

Single dose oral LD50 has not been determined. Typical for this family of materials, estimated. Ingestion

LD50,Rat > 5,000 mg/kg

The dermal LD50 has not been determined. Typical for this family of materials, estimated. **Dermal**

LD50, Rabbit > 2,000 mg/kg.

Inhalation The LD50 has not been determined.

Solid or dust may cause irritation or corneal injury due to mechanical action. Elevated Eye damage / Irritation

temperature may generate vapor levels sufficient to cause eye irritation. Effects may

Additives are encapsulated in the product and are not expected to be released under normal

include discomfort and redness.

Skin corrosion / irritation Prolonged contact is essentially nonirritating to skin. Mechanical injury only. Under normal

processing conditions, material is heated to elevated temperatures, contact with the

material may cause thermal burns.

Sensitization

Skin No relevant information found. Respiratory No relevant information found

Repeated Dose

Toxicity

Processing conditions or foreseeable emergency.

Chronic Toxicity and Carcinogenicity

No relevant information found.

Development Toxicity Reproductive Toxicity

No relevant information found. No relevant information found.

Section 12. Ecological Information

This product is essentially a high molecular weight polymer, not regarded as ecotoxic. **Ecotoxicity**

Persistence and degradability

This product is not readily biodegradable. Persistent in the environment.

May accumulate in soil and water systems. **Bioaccumulation**

Fire Hazards in Presence of Various Substances

No specific information is available in our database regarding the flammability of this

product in presence of various materials.

Explosion Hazards in Presence of Various **Substances**

Risks of explosion of the product in presence of mechanical impact: Not expected.

Risks of explosion of the product in presence of static discharge: Possible.

Risk of explosion from dust accumulation of this product is possible. See SDS section 7

Handling for more information.

Section 13. Disposal Considerations

Description and handling

Of residues

The same safety consideration apply to scrups / waste as apply to the preparation. Residues should be disposed of as required by national and local regulations.

Appropriate methods of Disposal of preparation

Incineration

Must be done under approved conditions, possibly with energy recovery and only at suitable

facilities equipped with a scrubber for the treatment of fumes before their release into the

atmosphere.

After suitable treatment (cleaning, grinding, etc.), the preparation can be safety re-used, as is or Recycling

mixed

with fresh material, when this is compatible wit the intended final application.

Landfilling

Should be avoided as far as possible. If unavoidable, use approved landfill sites.

National and Community provisions relating Waste Information

Directive 91/156/EEC of 18 March 1991; Directive 91/189/EEC of 12 December 1991; Directive

91/62/EEC of 20 December 1994.

Transfer to an approved disposal area in accordance with federal, state, and local

regulations.

Consult your local or regional authorities.

Section 15. Regulatory Information

Thailand: Hazardous Substance Act, B.E.2535

This product does not contain substances listed in Thai Hazardous substances Act.

Thailand: Notification of Ministry of Interior (Occupational Health and Safety in Chemical)

All components of this product are not listed.

HCS Classification

This product is not a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

International Regulations DSCL (EEC)

This product is not classified according to EU legislation

International List

Australia inventory (AICS): This material is listed or exempted. China inventory (IECSC): This material is listed or exempted. Japan inventory (ENCS): This material is listed or exempted. Japan inventory (ISHL): Not determined.

Korea inventory (KECI): This material is listed or exempted.

DISCLAIMER

- · This Applications specified herein is for reference only and not suitable for using in the manufacturing of any products in medical and pharmaceutical sectors.
- Determination of suitability of the product for the use and purpose shall be the customer's responsibility. Customer is obligated to inspect and test the product for such suitability. Customer is responsible for appropriate, safe, legal use processing and handling of the product.
- To our best knowledge, information contained herein is true and accurate as of the date of its publication. However, we make no representations or warranties with respect to accuracy, reliability and completeness of the information contained herein for any purpose.
- · No warranties, express or implied, which extend beyond the description herein are given by us. Nothing herein shall constitute any implied warranty of merchantability or fitness for a particular purpose.
- We assume no liability for any use of the product in combination with other materials. The information contained herein entirely relates to the product when it is not used in combination with any third party's materials.
